DR. PATTON'S ADDRESS.

PRINCETON'S PRESIDENT AT THE MAKEMIE LEAGUE.

Rev. F. L. Patton, D. D., L.L. D., president of Princeton University, delivered an address last night before the Makemie League at the First Pro terian Church. The occasion was the bi-monthly session of the league, but the coming of Dr. Patton made it a more notable event than these sessions

more notable event than these sessions usually are.

After the opening of the meeting by a hymn, Mrs. George W. Bethemm sang a solo, "Eye Hath not Seen, Ear Hath not Heard," in an exquisite manner. Rev. R. B. Eggleston, of Portsmouth, and Dr. J. W. Rosebro, of Petersburg, were present and participated in the exercises with the pastor, Rev. Edward Mack.

were present and participated in the exercises with the pastor, Rev. Edward Mack.

Dr. Patton's subject was "Doubt." His address was a scholarly effort and his argument clean cut and pointed. He spoke of the tendency to doubt the gospel of the Bible; the cause of this doubt, etc., and attributed it mainly to the seeming contradiction between the science of to-day and the Bible. The address was optimistic and the speaker expressed his belief that the church and science were becoming more reconciled every day. He believed that there was never an age when men so fully and devoutly believed in God. The minds of men which have gone out in search of scientific truths and had circumnavigated the globe, are just now coming in sight of that land which they left, and with revelation born of experience they will soon be saying, "We believe in God." and then they must say, and they will say—"and in Jesus Christ."

The greatest of all miracles was the resurrection of Christ. Prove that miracle and the smaller miracles will need no proving. The story of a man who cut in his door a large hole for his large cat and a small hole for his small cat was told, as illustrating much of the effort that is being made to-day to make men believe in Christian teachings. The man with the cats never thought that the small one could go through the passage made for the large one. Prove the great miracle and the smaller ones will take care of themselves. There is an immense presumption against a man rising from the desd. The presumption might be

changed in favor of this one Man rising from the dead.

The speaker spoke of the different philosophies that have been written and preached. The trouble was that much of the philosophy had been contrary to Christian religion. "You must have your philosophy and your theology in harmony," he said. Old Descartes tried to have one philosophy and another theology and as a consequence he came very near falling into the hands of the Inquisition. There must be harmony in all knowledge or else there is error.

No Torture Equal to the

Not much attention is often paid to the first symptoms of Eczema, but it is not long before the little redness begins to itch and burn. This is but the beginning, and will lead to suffering and torture almost unendurable: It is a common mistake to regard a roughness and redness of the skin as merely a local irritation; it is but an indication of ointments, salves, etc., applied to the surface. The disease itself, the real cause of the trouble, is in the blood, although all suffering is produced through the skin; the only way to reach the disease, therefore, is through the blood.

Mr. Phil T. Jones, of Mixersville, Ind., writes:

"I had Eczema thirty years, and after a great deal of treatment my leg was so raw and sore that it gave me constant pain. It linally broke into a running sore, and began to spread and grow worse. For the past five or six years I have suffered untold agony and had given up all hope of ever being free from the disease, as I have been treated by some of the best physicians and have taken many blood medicines, all in vain. With little faith left I began to take S. S. S., and it apparently made the Eczema worse, but I knew that this was the way the remedy get rid of the poison. Continuing S. S. S., the sore healed up entirely, the skin became clear and smooth, and I was cured perfectly."

Eczema is an obstinate disease and can not be cured by a remedy which is only a tonic. Swift's Specific—

S. S. S. FOR THE BLOOD

—is superior to other blood remedies because it cures diseases which they can not reach. It goes to the bottom—to the cause of the disease—and will cure the worst case of Eczema, no matter what other treatment has failed. It is the only blood remedy guaranteed to be free from potash, mercury or any other mineral, and never fails to cure Eczema, Serofula, Contagious Blood Poison, Cancer, Tetter, Rheumatism, Open Sores, Ulcers, Boils, etc. Insist upon S. S. S.; nothing can take its place.

Books on these diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.
